We the undersigning NGOs and humanitarian organizations, on the basis of the following statements and documentation reported by the Kurdish Red Crescent and other Humanitarian actors, deplore the aggression moved by Turkey against Efrîn region in north Syria, from where we get reports showing that the violations of human rights have reached to tragic levels.

There are evidents that the Turkish state is braking international law and opposing the international conventions and resolutions during the ongoing massacres against the indigenous peoples of the region and also against the persons displaced in the same area.

The Turkish state and some Free Syrian Army groups started this military attack on the 20th of January 2018 with an intensive shelling by Turkish warplanes, targeting both military sites and civil buildings in Efrîn such as houses, schools and hospitals.

The Kurdish Red Crescent documented the death of 227 civilians, among those 32 child and 28 women, and 651 civilian are injured, among those 87 children and 93 women, due to Turkish attacks until 26'th of February.

Moreover, others major attacks by tanks and other heavy weapons from the Turkey's soil at the border with Syria, are targeting the Northern, Eastern and Western areas of Efrîn region, causing massive displacement within the region and many civillian casualties. According to UN, in the first 2 weeks of Turkish attack, more than 16.000 have been displaced due to the bombardments, and the number was increased until the end of February. All Efrîn area is facing a very serious humanitarian crisis because of these attacks, with the direct consequence of a lot of innocent people being massacred or were being badly injured and many others were displaced or lost their houses.

There are grave concerns for the civilians who are in the remote areas and who lack access to healthcare, shelter and food. We also observed a rising number of psychological disorders- like post-traumatic stress disorder, especially among children – that are deeply affected by the ongoing attack.

The Kurdish Red Crescent and other humanitarian actors reported that there are still died bodies (civilians and military) those have not been evacuated, because the targeting from the Turkish side and FSA, and the last targeting on the humanitarian actor was on the IRCC and SARC convoy on 1st of March.

Although the United Nations Security Council voted unanimously on Saturday 24th of February in favor of a 30-day cease-fire in Syria under 2401, this has not been applied neither in Gouta nor in Efrîn.

Between 24th of February and 1st of March, according to the Kurdish Red Crescent there were 118 casualties in Efrîn 36 died and 82 injured, including Civilians and military cases.

Since we are working closely in North Syria and we see how the humanitarian crisis is developing, we call for immediate cessation of the Turkish aggression with the Free Syrian Groups battalions accompanying them on the area of Efrîn.

EFRÎN

Efrîn is a district, as well as a city, that is 40 Kilometers to the North West and has become part of self-autonomous rule since its establishment in 2012. Later it became part of the Democratic Federation of Northern Syria, declared in 2016.

The region's population was nearly 500,000 before 2011. It is composed of many towns and about 380 vilages. After 2011 and due to massive military operations between the regime and the opposition in Idlib and Northern Aleppo suburbs - in addition to the fall of opposition-controlled areas in Aleppo city to the regime in December 2016 - the area was considered safe for Internally Displaced Persons (IDPs) from many areas all over Syria. The number of IDPs is roughly 250,000, in addition to many families from the region who used to live in Aleppo before 2011. The current unconfirmed number of the civilians in Efrîn region is around 800,000 people including IDPs.

Despite many battles between the SDF that control the area, and some Islamist (including AQ's Nusra front) and other armed groups, the SDF always maintained its control over the region since it took over in 2012.

The Causes of Emigration to Efrîn Province

Efrîn is located in the northwestern corner of Syria, and it is 60 Km away from the Aleppo province. Emigration to the province began since the beginning of the crisis in 2011, because of the clashes between the Syrian regime and the free army. With the intensification of the conflict, the flow of refugees to the province increased to more than 300,000 IDPs, coming from various Syrian regions near Efrîn (such as Aleppo, Hamma, Al-Raqqa, Idlib, Kobani, Izaz, Al-Tabqqa, Ihzer, Tel Hasel, Tel Aaran, Kefr Naya) and other regions.

IDPs distributed to the villages, cities of Efrîn and the shelters as follows:

- in the province center: 143505 IDPs.
- in Sherawa area: 76005 IDPs.
- in Jendres area: 43510 IDPs.
- in Rajo area: 6970 IDPs.
- in Shran area: 10105 IDPs.
- in Shekh Al-Hadid area: 780 IDPs.

- in Bilbil area: 1645 IDPs.
- in Maabtli area: 2207 IDPs.

The total number of the confirmed registered are **284,727 IDPs**.

DETAILED FILE ON CHILDREN VICTIMS OF TURKISH ATTACKS ON EFRÎN

From 20\1\2018 to 21\2\2018

UNICEF laws assure that children have the right of living, learning, playing, laughing and expressing themselves. However, in Efrîn children lost their innocence, their right of learning, playing and laughing because of the Turkish attacks on their houses, schools and parks. Efrîn's children aged too much because of their deep injuries as they lost their lives and the details in them. One child lost his hand, another lost his foot and most of children lost their family members with no one left. Children of Efrîn sense fear, instability and anger. FROM THE DESK OF
UNODC AMBASSADOR NADIA MURAD

March 12, 2018

FOR IMMEDIATE RELEASE:

Today, I received information that the area of Afrin inhabited by Kurds, Yazidis and Christians is under siege from all sides. There is only one road through which people can leave the city. 200 civilians have been killed, including 3 Yazidi children. Shrines and religious sites have been destroyed or forcibly converted into mosques. Peoples homes are being looted and minorities are being shamed by extremist militias.

Many of these actions are war crimes and should be documented. This horror is reminiscent of the initial actions of ISIS in Iraq. Medical and healthcare services are urgently needed. This situation foreshadows "ethnic cleansing" and genocide.

I appeal to the UN, the EU, and UN Security Council to demand that all sides respect the rights of civilians and work toward a cease fire. I also call on humanitarian organizations and UN agencies to provide support to civilians in the areas where access to food and medical is rapidly disappearing.

All sides in Syria should work together for a peace process that will ensure peace, stability, the protection of the rights of all religious and ethnic minorities. Now is the time to heal wounds, avoid further escalations and return to normality for people in Iraq and Syria.

Pressemittteilung – Dringend

„Eziden in Afrin rufen um Hilfe“

Seit über 40 Tagen bombardiert die türkische Armee die Region Afrin, auch die dortigen Ortschaften der Eziden. Die türkische Armee kämpft Seite an Seite mit jihadistischen Gruppen gegen die Kurden und andere Minderheiten, wie die Eziden, Aleviten oder Christen. Dieser Krieg entwickelt sich zunehmend zu einem Religionskrieg. Seit Beginn des Krieges sind bis jetzt mehrere Hundert Menschen ums Leben gekommen, überwiegend Zivilisten. Seit gestern steht die türkische Armee zusammen mit den Jihadisten vor der Stadt Afrin mit ihren über 400.000 Einwohnern.

Der Zentralrat der Eziden in Deutschland weist seit Wochen auf bevorstehende Gefahr hin und fordert die internationale Gemeinschaft auf, schnell einzugreifen, um einen Blutbad an den Eziden zu verhindern.

Der Krisenstab des Zentralrates der Eziden in Deutschland nimmt seit gestern nur noch verzweifelte Hilferufe wahr. Ein Gespräch kommt nicht zustande. Dazu der Leiter des Krisenstabes, Sheikh Esmat Barimou: „Seit gestern versuchen wir mit den Eziden in Afrin in Kontakt zu treten. Einige unsere Kontakte sind nicht erreichbar, andere schreien nur noch um Hilfe. Sie haben weder Wasser noch Nahrung. Sie hätten sich in den Kellern der Häuser, die überfüllt sind, versteckt. Die türkische Armee bombardiere die Stadt und die Jihadisten bereiten sich auf einen Angriff auf die Stadt vor. Die Familien seien auseinandergerissen, und man wisse voneinander nichts. Die Eziden sind in der Falle, wenn man ihnen nicht von außen helfe. Ich bitte und appelliere an die Weltgemeinschaft, allen voran die USA und Russland und an die Menschheit, diesen Krieg sofort zu unterbinden.“

Sheikh Fakhreddin Abdo, Mitglied des Krisenstabes appelliert an die Eziden in Deutschland, sich ab jetzt überall an friedlichen Demonstrationen, Kundgebungen und Protesten zu beteiligen bzw. eigene zu organisieren. Dazu sagt er: „Wir hatten noch die Hoffnung, dass die Weltgemeinschaft interveniert, um diesen Krieg zu beenden, insbesondere als die syrische Armee angekündigt hatte, in Afrin einzumarschieren. Unsere Hoffnung scheint jedoch vergeblich zu sein. Afrin ist eingekesselt und unsere Verwandten befinden sich in der Falle. Ähnlich wie in Shingal rechnen wir mit einem Massaker durch die Jihadisten, denn diese Jihadisten lassen sich auch nicht von der türkischen Armee kontrollieren, sie töten und rauben wahllos. Ich bitte alle Eziden weltweit, sei es aus dem Irak, aus Russland, aus der Türkei oder aus Syrien für die Eziden in Afrin auf die Strasse zu gehen. Lasst unser Volk in Afrin nicht allein!“

بيان صحفي (عاجل)

"الايديبيون في عفرين يطلقون نداء المساعدة !"

منذ أربعين يوماً تقوم القوات التركية بقصف مدينة عفرين ، و من ضمنها القرى الايزيدية في المنطقة. القوات التركية تحالفت مع الجهاديين لمحاربة الكورد و الأقليات الدينية مثل الايزيديين و العلويين و المسيحيين متخذة طابعاً دينياً واضحاً من صرخات الجهاديين و شعاراتهم و طريقة تعاملهم مع الأسرى . منذ انطلاق هذه الحملة العسكرية سقط المئات من الضحايا ، جلهم من المدنيين العزل. منذ يوم أمس تقف القوات التركية مع الجهاديين على أطراف مدينة عفرين لاقتحامها ، جدير بالذكر يسكن المدينة حوالي ٤٠٠ الف نسمة و نتوقع حدوث كارثة إنسانية حقيقة في حال حدوث ذلك .

منذ أسابيع يطلب المجلس الاستشاري الايزيدي في المانيا من الجهات الدولية بوقف هذا العدوان و يحذر من حدوث مجازر بحق الايزيديين في المنطقة .

فريق أزمة عفرين التابع للمجلس يحاول منذ أمس دون جدوى الاتصال مع الجهات الدولية ذات النفوذ في المنطقة . حيث يقول مسؤول فريق أزمة عفرين الشيخ عصمت بريمو (هو شخصياً من أهالي عفرين) : منذ يوم أمس نحاول الاتصال بأهلنا في عفرين ، البعض من الذين كانوا على اتصال معنا و يزودونا بالمعلومات لم يعد لهم اثر ، البعض الآخر يستجد بنا و يطلب المساعدة ، حيث يخبؤون أنفسهم في اقبية المنازل فلا ماء و لا اكل لديهم. القوات التركية تقوم بقصف المدينة و الجهاديين يستعدون لاقتحامها . الكثير من العوائل تفرقوا و فقدوا الاتصال فيما بينهم . نطلب من الولايات المتحدة و روسيا بوقف هذه الحرب فوراً و بخلافه ينتظر الايزيديين المحاصرين مصيراً مجهولاً .

عضو فريق أزمة عفرين الشيخ فخرالدين عبود يحث الايزيديين في الخارج بالمشاركة في المظاهرات الجماهيرية و تنظيم الاحتجاجات بأنفسهم في مناطق تواجدهم ، ويضيف : كان لدينا الأمل بان الحرب ستتوقف و المجتمع الدولي سوف يتدخل ، خاصة بعد اعلان الجيش السوري الدخول الى عفرين ، لكن يبدو بأنها كانت مجرد امال . عفرين الآن محاصرة و اهلنا ايضا محاصرين فيها ، حيث ينتظرهم مصير أهل شنغال في الثالث من اب ٢٠١٤ . هؤلاء الجهاديين لا تستطيع القوات التركية أيضاً السيطرة عليهم ، حيث نرى في وسائل التواصل الاجتماعي ما يقومون به من افعال مخزية من سرقة وقتل و إطلاق شعارات تكفيرية. اترجى جميع الايزيديين ، سواء ايزيديي العراق او سوريا او روسيا بالنزول الى الشارع و التظاهر من اجل عفرين ... لاتدعوا اهلنا في عفرين لوحدهم يواجهوا مصيرهم .
